

FLORIDA SOCIETY OF BOTANICAL ARTISTS

DELIBERATE COMPOSITION

MASTER CLASS WORKSHOP with Hillary Parker

This Master Class looks at composition as a process that begins before the first stroke of the pencil touches the paper. Through fascinating exercises and assignments that challenges student's thinking in a more abstract way, students engage their keen observation and advanced drawing skills to interpret the plant's true nature and capture its vitality with scientific accuracy freeing them from directly copying their subject. This allows each artist to identify and express their individual artistic voice through their work.

November 8-10, 2013

10:00am - 4:00pm
